Welcome back to the NYU Radiology Alumni Society (NRAS) newsletter!

Message from the NYU Radiology Alumni Society

Greetings!

This past March, we had a successful and fun first Alumni Social event – a happy hour at Valeries on West 45th Street. Over 20 Alumni attended, and they were able to reconnect with past residents and fellows, reminisce about training days and form new contacts and friendships. We are looking forward to our next social event –date and time TBA. We would also like to encourage regional representatives to hold NYU Radiology alumni events locally in their area.

Our mentorship program is in full effect, and it is fulfilling the goal of connecting radiology residents with alumni. The program allows residents to foster a relationship with practicing alumni and use their alum mentor as a resource for advice. We have been working on creating a website for our society with the intent to connect alumni and current residents and fellows, allowing them to share information with each other. We are exploring the possibility of including a job recruitment portal in our website, which would be searchable by residents, fellows, and alumni in practices.

We are continuing to update our alumni list, and we would love to recruit more active members! If you're interested in getting involved with the society, we will be holding an open board meeting this July to welcome new residents and fellow graduates who want to join the board, as well as anyone else who's interested. To get involved, please contact our board secretary, Anu Khasgiwala (anunita.khas@gmail.com).

As you may all know **NYU Radiology is currently ranked #4.** This is a testament to how great the NYU Residency training program is! We want to thank everyone who voted for NYU Radiology last year on the Doximity residency program survey. We need your vote again this year. **The Doximity residency program survey is now open. Please vote!**

Thank you and best regards,
Lauren Levy, President of NRAS

Doximity residency program survey—PLEASE VOTE!
To register:
• Go to www.Doximity.com and enter your name on the homepage. You will need to create a profile if your name does not appear.
• Once you are taken to your profile, verify and/or edit your physician information for accuracy. This information is used for the US News physician directory.
To vote:
• In order to participate in the survey and submit nominations, you may need to download the Doximity app for iPhone or Android, and then tap Residency nominations.
https://www.doximity.com/physicians/download.
• You may also vote by logging into your Doximity account on a computer. The 'Residency Nominations' option should be in the right upper corner of the home page.

First Alumni Social Event

On Thursday, March 7, 2019, we had our very first Alumni Social at Valerie on W 45th St. Over 20 alumni were able to attend. We look forward to see you at our next event!

Eugene Won (2019), Jeffrey Huang (2022), David Podhaizer (Neuro 2018), Michael Wong (Neuro 2017), Joanne Rispoli (2018, Neuro 2019)

Amita Kamath (MRI 2010), Daniel Meltzer (2005, Neuro 2006), Anu Khasgiwala (2018, Neuro 2019), Nidhi Jain in back row (2015, MSK 2016), Dawn Lazarus (2005), Rita Yeretsian (2008)

Ming Huang (2009, MSK 2010), Lauren Levy (1996, Breast 1997), Pat Clayton, Amita Kamath, Kristin Elias (2010, Breast 2011)

Michael Duhaney (1995), Kory Byrns (Neuro 2016), Evan Kaminer (1996), Noam Eshkar (1998)

Dawn Lazarus, Rita Yeretsian, Clement Yang (2005, MSK 2006))

Frank Lombardo (1999), Lauren Levy, Stanley Yang (2003, Neuro 2004)

On April 24th, NYU and Stanford Departments of Radiology organized the BOLD AIR Summit. Co-directed by Dr. Yvonne Lui and Dr. David Larson, this was a *FREE* one day summit bringing together bioethicists, legal experts and imaging experts to address a range of topics from ethical principles and privacy considerations to regulatory issues when it comes to Artificial Intelligence in radiology. Two white papers currently under works-in-progress from the ACR and Stanford were also presented and discussed.

NYU Resident and Faculty Recognition

2018 RSNA Annual Oration in Diagnostic Radiology
Dr. Michael P Recht

Dr. Recht had the honor of giving the Annual Oration in Diagnostic Radiology at the RSNA 2018 meeting. He discussed how radiologists and radiology departments can utilize recent advances in informatics, analytics/business intelligence and AI/machine learning to become more integrated into the clinical care team and more visible and "user-friendly" to referring physicians and patients. He shared NYU Radiology's informatics innovations including virtual rounds and virtual consults, enhanced (multimedia) imaging reports, "collaborative" imaging pathways, radiology-pathology feedback loops and a newly developed patient-centric radiology mobile app.

During his address, Dr. Recht also announced the release of more than 1.5 million anonymous MR images from our fastMRI collaboration with Facebook AI Research (FAIR), a partnership focused on using AI to speed up MRIs. This is the largest-ever open source dataset released. The aim of NYU Radiology's collaboration with Facebook on this project is to foster the development of AI technology to make MRI scans 10X faster.

RSNA 2018 - Resident Presentations and Achievements

2nd Year Residents:

- **Luke Ginocchio**
  Educational Exhibit - Imaging After Conventional and Stereotactic Body Radiation Therapy in the Thorax (Certificate of Merit)
- **Alexandra Millet**
  Educational Exhibit - Pathologic Nipple Discharge: Evaluation, Management, and Imaging Findings
- **Chenyang Zhan**
  Scientific Abstract - Detection of hepatic steatosis and iron content at 3 Tesla: Comparison of T1-weighted two-point Dixon with dual-ratio discrimination, quantitative T2*- corrected multi-echo Dixon, and T2- corrected multi-echo single voxel spectroscopy (Travel Award)

3rd Year Residents:

- **Ryan Chung**
  Scientific Abstract - Natural Language Processing for Identification of Incidental Lung Nodule: Aiding the Evaluation of Radiology Recommendations for Guideline Concordance (Travel Award)
- **Sushma Gaddam**
  Educational Exhibit - Perceptive and Interpretive Pitfalls at Digital Breast Tomosynthesis (DBT)- Lessons from Continued Clinical Practice (Certificate of Merit)
- **Eric Kim**
  Scientific Abstract - City Patterns of Screening Mammography Uptake and Disparity Across the United States (Trainee Research Prize)
  Scientific Abstract - Breast Density Classification with Deep Convolutional Neural Networks Utilizing 200,000 Screening Mammograms
  Scientific Abstract - Incorporating Patient Characteristics in Breast Cancer Screening with Deep Convolutional Neural Networks
- **Kamran Munawar**
  Scientific Abstract - Multilevel Glenoid Morphology and Retroversion Assessment in Walch B2 and B3 Types (Travel Award)
- **Ujas Parikh**
  Educational Exhibit - What the Breast Radiologist Needs to Know About Imaging Transgender Patients (Solicitation for Radiographics)
- **Ken Zhao**
  Scientific Abstract - CT Imaging of Hepatic Trauma: Predictors of Arterial Injury and Need for Intervention

New Chief Residents Announcement

Alexandra Millet (2nd year resident and NRAS Resident Representative)

Allie is a Houston native living in Harlem with her fiance and their dog, Blue. She enjoys dance and ice skating and is planning a career as a breast radiologist.
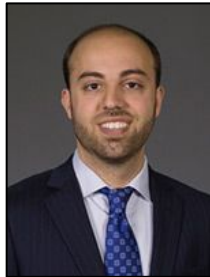

Chenyang Zhan (2nd year resident)

Chenyang lives in Mahwah, New Jersey with his wife and two children. He is a runner who recently ran his personal best at the Chicago Marathon! He plans to pursue Interventional Radiology.

The Graduating Class of 2019 4th Year Radiology Residents

Valentino Abballe
MSK
NYU Langone

Benjamin Abiri
MSK
NYU Langone

Jovan Begovic
Body

Mikell Yuhasz
Neuroradiology
Emory

SAVE THE DATES

The Michael Macari Radiology Resident Research Symposium
The 18th Annual Norman E. Chase Lecture- *Rethinking MRI with Magnetic Resonance Fingerprinting*,
Presented By Mark A. Griswold, PhD (Case Western Reserve University)
When: Saturday, June 8, 2019 at 7:30 AM
Where: NYU Langone Medical Center Alumni Hall B

NYU Radiology Alumni Reception at the RSNA
When: Tuesday, December 3, 2019 from 6:30-8:30 PM
Where: The Signature Room on the 95th Floor at the John Hancock Center
